Birmingham, MI 48009

Re: Protecting General Motors' Intellectual Property Rights

Dear Mr. Nemeth:

As you know, I represent General Motors Company and its wholly-owned subsidiaries (hereinafter, referred to collectively as, "GM") in various intellectual property matters. GM is the owner of a plethora of world-famous trademarks, utility patents, design patents, and copyrights ("GM's intellectual property"). GM takes policing and enforcement of its intellectual property rights seriously. For example, to make the public aware of GM's *design patent* rights, GM maintains an electronic listing of its registered design patents and associated parts at www.gmparts.com (copy of patent list attached hereto as Exhibit A).

In July 2022, Customs and Border Protection ("CBP") seized a number of parts from your client's facilities in Warren and Richmond, MI that were infringing GM's intellectual property rights. For those parts infringing GM's design patent rights, CBP has indicated that those parts will be returned to your client in the near future.

This letter serves as notice that GM objects to the sale of any parts that infringe upon GM's intellectual property rights. Further, GM has a good faith belief that your client has been importing and selling parts that infringe GM's design patent rights, as evidenced at least by the parts that CBP intends to return to your client (see Exhibit B). For these reasons, GM demands that you:

- (1) Discontinue all importation and/or sale of any infringing products;
- (2) Certify in writing that you have destroyed all infringing goods in your possession or under your control and that you will destroy all infringing goods once returned to your possession by CBP;
- (3) Provide an accounting of the number of infringing goods sold and gross revenue for those goods, broken out by product number;
- (4) Provide the names and addresses of all suppliers and/or exporters of the goods summarized in item 2; and
- (5) Refrain from future importation and sale of any infringing goods.

I trust that you understand GM's need to protect our valuable intellectual property rights, and that you share in our desire to resolve this issue quickly and amicably. In this regard, please provide a

general motors

written response to me (e-mail is acceptable) within fourteen (14) days from the date of this letter agreeing to these terms.

Nothing in this letter is intended to waive any rights, remedies, claims, causes of action or defenses of GM, all of which are expressly reserved.

Thank you for your prompt attention to this matter.

Sincerely,

A handwritten signature in blue ink that reads "Angela K. Caligiuri".
